The Cyprus Institute of Marketing (CIM)

Operating in Nicosia since 1978 and in Limassol since 1984, the CIM is the first Business School in Cyprus that was set up in order to elevate the science of marketing both in Cyprus and abroad. Since 1978, the CIM has evolved into a major centre for the development of marketing & management science in Europe and the rest of the world, providing the opportunity to more than 5,000 students to acquire world class education and qualifications. The CIM has been a pioneer in learning for adult, in-career people, exclusively offering evening classes to working individuals.

The CIM is particularly advantageous to individuals, who for one reason or another, missed out on the opportunity to study after graduating from secondary school, but who always had the desire to pursue their learning, gain further knowledge and qualifications in order to advance in their careers. The CIM is rightly characterised as a 'Second-Chance Institution', and for this reason we say that at the CIM, "Learning Never Ends".

As you would expect, throughout your course there will be a healthy amount of coursework for you to complete and exams, group work and presentations so that we, and you, can see just how far you are progressing. And don't forget, we are always available to give you a hand should you need one.

Course overview

The aims of this programme are to increase and refine the management and marketing skills of the students, most of who will already be in management posts. Superior management is the product of certain attitudes, knowledge, and skills that combine in unique individuals who contribute to an organisation's survival, growth, financial returns and continuous adaptation to changing circumstances. The course is precisely concerned with identifying and helping produce such attitudes. Our Lecturers are inspiring and continuously alert to changes in the business world. As firms in Cyprus and abroad face the challenges of the 21st century, there continues to be a need for increased numbers of managers and executives who have a holistic view of how successful organisations are structured and managed.
